URBANIK RESERVE

The 86-acre Urbanik Reserve was purchased from the Urbanik family in 2003. It contains a man-made pond that is bound by a causeway/dam at the northern end with an overflow discharge. The grassy dam provides a southern exposure that is perfect for warming up on winter days or while watching the clouds roll past in early spring. There are two trails on the preserve. The blue trail goes around the pond. A local Eagle Scout created the red trail that winds around the property through forested areas.
